

Firing Practice Areas at Sea

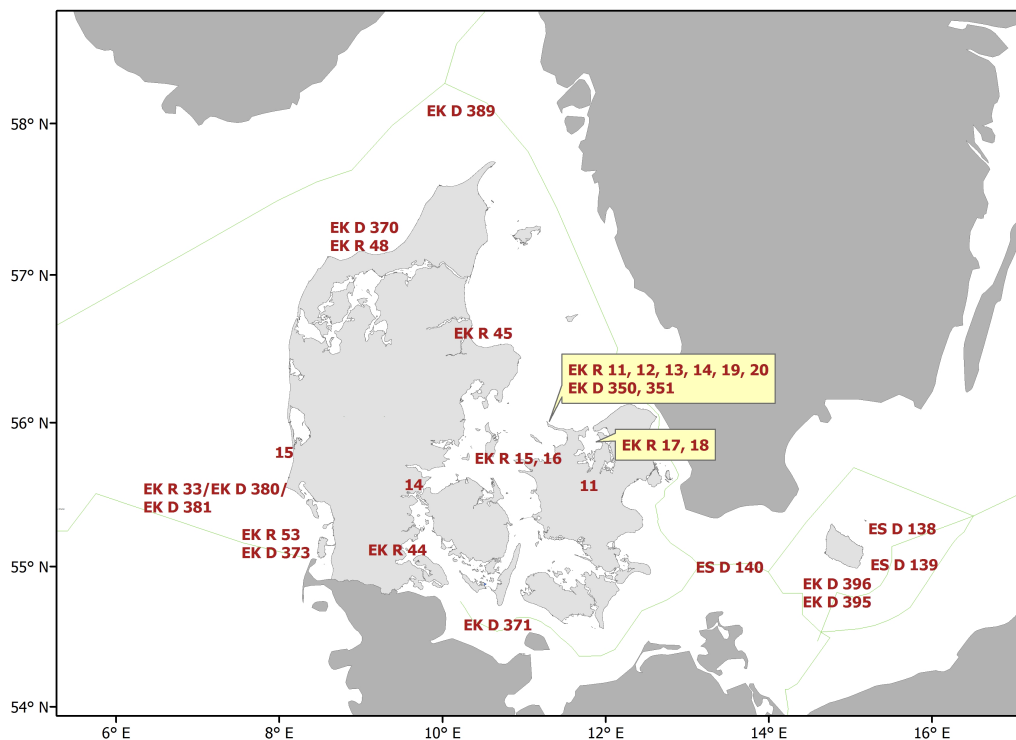

02. January 2018

Annex to Notices to Mariners

Each firing practice area has a designation, for example **EK D 371**. The designation is given in the charts in the delimitation lines of the firing practice area.

Firing times are announced, by the Defence Command Denmark, on the Danish Maritime Authority's homepage, together with the other Navigational Warnings and also daily over Danmarks Radio on 243 kHz (long wave) immediately after the weather forecast starting at 17.45 hours. Firing times are, furthermore, announced daily on the teletext of Danmarks Radio, page 428 and are to be found here too: <http://www.flv.dk/milais/Navwarframe.html>. Under *Note*, the relevant contact details of each individual firing practice area are given.

As regards the abbreviations used, see EfS A/1 2018.
