Each firing practice area has a designation, for example **EK D 371**. The designation is given in the charts in the delimitation lines of the firing practice area.

Firing times are announced, by the Defence Command Denmark, on the Danish Maritime Authoritys homepage, together with the other Navigational Warnings and also daily over Danmarks Radio on 243 kHz (long wave) immediately after the weather forecast starting at 17.45 hours. Firing times are, furthermore, announced daily on the teletext of Danmarks Radio, page 428 and are to be found here too: http://www.flv.dk/milais/Navwarframe.html. Under *Note*, the relevant contact details of each individual firing practice area are given.

As regards the abbreviations used, see EfS A/1 2018.

Details
In connection with firing practices, a temporary prohibited area is established on the sea off the firing practice at position:
- 55° 01'N - 014° 55'E.

The firing practice area covers two areas: Hullebaek (inner area) and Raghammer Odde (outer area). When firing is practiced in Raghammer Odde, firing is practiced in both areas.

Prohibition
During firing practices, all navigation, anchoring and fishing are prohibited in the area.

Signals
Information about firing practices is given by displaying the following signals from one hour before the start of the firing practice until its end:

a) By daylight, a sphere is hoisted at signal mast 1 and 2.
   In addition, a white, flashing light is lit on both signal masts (60 flashes per minute).

b) In darkness, lights displaying a red and a white alternating flash are lit on both signal masts (30 flashes per minute).
   - 55° 01,38’N - 014° 54,48’E, signal mast 1.
   - 55° 00,39’N - 014° 57,31’E, signal mast 2.

Note
Information about firing practices is available from the safety office, tel. +45 5697 8106 / +45 2010 6551, or over VHF radio. Call name: Raghammer. Call channel: 16. Conversation channels: 6, 8 and 77. The radio is open from one hour before the start of the firing practice and until its end.

Details
In connection with firing practices, a temporary danger area is established on the sea off the firing practice area at position:
• 56° 00’N - 011° 17’E, Gniben.
Shooting targets at anchor can be present in the area outside the announced shooting hours. The shooting targets is marked with white light showing Mo(R).
Mariners are requested to pass with caution.

Signals
Information about firing practices is given by displaying the following signals on the signal mast from one hour before the start of the firing practice and until its end:

a) By daylight, a red flag is hoisted and a white, flashing light is lit (60 flashes per minute).
b) In darkness, a fixed red light is lit on the signal mast.
• 56° 00.54’N - 011° 16.76’E, signal mast.

Note
Information about firing practices is available from Naval Weapon Centre, tel. +45 7285 5500. During firing practices from ashore, the control tower from where the firing is controlled can be contacted by tel. +45 7285 5514 or over VHF radio. Call name: Gniben Radio. Call channel: 16. Conversation channel: 6. The radio is open from one hour before the start of the firing practice and until its end.
